

BOTTLE DEPOSIT PETITION

Petition to support an environmental policy that protects our precious natural environment and will improve our Indiana public school systems.

Dear Governor Daniels and Indiana State Legislators:

We the undersigned citizens of the State of Indiana urge you to adopt effective and efficient **refundable bottle/can** legislation. Our waterways, roadways, forests and farmlands are being senselessly littered. Refund laws in other states provide excellent models of how this legislation can and does work. These laws are not burdensome; rather they provide an important step in improving the quality of life for all who reside in the great State of Indiana. With the money generated from bottle legislation, we urge research to investigate and support other responsible ways to reduce solid waste and improve recycling efficiency. Also, we will put a majority of the money generated into our public school systems that will result in healthier school lunches, keeping the fine arts active and better pay for our teachers.
